### **PROJECTS**

#### **Pokedex**

Developed a full-stack Pokédex application using the MERN stack, with Axios for efficient data fetching. The backend is built with Node.js and Express, handling API requests and connecting to MongoDB for data storage. This project demonstrates strong full-stack development skills, with a focus on seamless API integration and responsive data handling. https://github.com/amanpandey123456789/Pokedex
